

Position Description

Regulatory Analyst

Regulation

Regulation Policy and Strategic Asset Management

Objectives

- Undertake analysis and provide advice on regulatory and pricing strategy, electricity supply industry compliance, energy market and stakeholder issues

Role Specific Accountabilities

- Collect and analyse complex information from a range of internal and external sources to identify and understand key issues, risks and opportunities for TasNetworks, including early identification of emerging issues
- Undertake analysis to develop an understanding of the consequences to TasNetworks of potential developments and decisions
- Develop advice on key issues, including potential impacts, risks and opportunities and a proposed TasNetworks position
- Prepare effective written materials in response to diverse issues raised by stakeholders
- Work with leaders across the business to support regulatory team activities, including revenue reset processes and submissions
- Monitor energy market, customer, owner, government, regulatory and other developments with the potential to impact on TasNetworks, and undertake research to identify key issues and implications
- Support the preparation of persuasive submissions, briefing notes, board papers, correspondence and other materials
- Support the development and delivery of information and training to raise employee awareness of relevant changes impacting the business
- Any other duty or task as reasonably and lawfully directed by TasNetworks

To be successful in this role

- Degree or equivalent qualification in Economics, Commerce, Business, Engineering or similar competency A working knowledge of transmission and/or distribution electrical networks, spatial concepts, and network topology.
- Experience in the energy sector including a detailed understanding of the regulatory and stakeholder environment Comply with asset data standards such as the Asset Breakdown Structure, Data Integrity Standards and similar and collaborate with team members and internal stakeholders to uplift the standards as required.
- A demonstrated understanding of the regulatory framework in which TasNetworks operates and the link between business decisions and their impact on regulatory outcomes Excellent written and verbal communication skills.
- Skilled in written and verbal communication and ability to modify tone and content for different audiences
- Demonstrated ability to successfully deliver on a range of tasks and priorities
- Demonstrated ability to research and analyse issues, identify key themes and implications and develop options and recommendations
