

Position Description

Powering a
Bright Future

Network Innovation Analyst

Digital, Strategy & Customer

Strategy Team | Network Innovation

Objectives

- Lead financial, commercial and technical modelling/analysis to prioritise and deliver projects aligned to the company strategy
- Create value for customers and the business by identifying areas of technology innovation
- Manage projects that deliver against the strategy for the future of the network to ensure it evolves in accordance with changing customer needs
- Develop metrics and report against operational and financial performance.

Role Specific Accountabilities

- Plan, manage and monitor the development and delivery of strategic network innovation initiatives including assessing profitability and value streams, overseeing governance arrangements and stakeholder management
- Identify emerging future requirements of the network and in consultation with customers/stakeholders develop plans to maximise value and lower costs
- Work with internal and external stakeholders to scope initiatives that are aligned to the strategy
- Prioritise innovative network/non-network solutions for progression via technical/financial analysis
- Drive collaboration across TasNetworks to deliver network innovation initiatives
- Assess financial performance of technical innovations, ensuring that projects deliver genuine value to TasNetworks, its shareholders and its customers through advanced financial modelling, e.g. DCF
- Complete set and monitor KPIs for project delivery
- Any other duty or task as reasonably and lawfully directed by TasNetworks.

TasNetworks and **you.**

To be successful in this role

- Demonstrate TasNetworks' core competencies, which are central to all positions at TasNetworks
- Advanced capability in financial analysis and commercial modelling, e.g. project cash flow and P&L modelling
- Knowledge of new products and service offerings, relating to Energy Distribution and associated industries, available to, or soon to be available to, customers
- Ability to understand and assess information from a range of sources to then draw insights, conclusions, and sound recommendations
- Effective communication skills, and experience in the preparation of internal and external reports
- Ability to build relationships with broad range of internal and external stakeholders
- Demonstrated ability to work collaboratively across different teams
- Delivery driven with a desire to challenge the status quo
- Ability to manage projects
- Tertiary qualifications in business, engineering, economics or an equivalent discipline.
