

# Position Description

Powering a  
Bright Future

## Planning and Statutory Assessment Specialist

Operations Group

Major Transmission Projects

### Objectives

The Planning and Statutory Specialist will provide support and advice to the Lead Planning and Statutory Assessments and to the broader Major Transmission Project team through:

- having a broad understanding of land use planning and other relevant assessment processes to support the delivery of major projects
- being capable of providing professional, timely and pragmatic advice in relation to land use planning and other relevant statutory assessment processes, including environmental, ecological and heritage

### Role Specific Accountabilities

- Provide support to the Lead Planning and Statutory Assessments and across the Major Transmission Projects team to deliver planning and statutory assessment outcomes.
- Provide support to other work streams as required to support the development and delivery of Major Projects.
- Provide support in relation to the identification, management and mitigation of risks as they may impact upon the successful development and delivery of Major Projects.
- Critically evaluate consultants' outputs to ensure they are fit for purpose
- Be aware of legislative and regulatory changes that may impact upon assessment processes
- Participate in briefings and forums with internal and external stakeholders as required.
- Undertake reasonable travel and after-hours work as required
- Any other duty or task as reasonably and lawfully directed by TasNetworks

TasNetworks and **you.**

## To be successful in this role

- Tertiary qualification in land use planning or related discipline
- Sound knowledge of relevant land use planning and statutory assessment process and legislation
- Commitment to ongoing learning and professional development
- High-level written communication skills including the compilation and preparation of quality reports and papers for various internal and external audiences
- Ability to actively and positively contribute to a high performing multi-disciplinary team
- Strong interpersonal skills, including demonstrated ability to establish and maintain productive relationships with internal and external stakeholders
- Sound judgement and a pragmatic, risk-based approach to decision making and problem solving
- Ability to work effectively in an environment of ambiguity and change
- At least five years' experience working in a land use planning or statutory assessment role (desirable)
