Position Description

TasNetworks | Powering a Bright Future

Leader Network Asset Data

Digital, Strategy and Customer	Operational Systems

Objectives	• Lead the Network Asset Data team to sustain network performance by ensuring that quality network asset data is captured effectively into asset information and technical drawing systems. • Lead and manage the Network Master Data Team to deliver a high standard of customer service, whilst managing work volumes, resource planning and TasNetworks objectives. • Ensure the provision of a quality Utility Network Model (UNM). • Ensure the timely provision of proposed assets into the UNM required by Network Operations for switch writing as part of the Network Asset Outage (NAO) workflow.
Role Specific Accountabilities	• Develop KPIs and, with the team, the plan to meet and track the relevant metrics that support the business. • Coach, develop and mentor direct reports to ensure they are achieving the outcomes needed, developing to their full potential and engaged in delivering a high level of accuracy and customer service. • Be accountable for adherence to the agreed budget and be responsible for seeking approval for unbudgeted items. • Provide expert advice towards the development and maintenance of strategies to enable access to asset information by team members, customers and stakeholders. • Conduct the role of an "asset custodian" for asset spatial data and technical drawings. • Instigate and assist with technical projects, standards and documentation regarding network master data systems. • Ensure the provision of GIS and CAD requirements, schematics and detail drawings of TasNetworks network and associated equipment, as required to persons both within and external to TasNetworks. • Ensure that procedures are developed and maintained to effectively support the collection, storage and analysis of asset information and technical drawings. • Any other duty or task as reasonably and lawfully directed by TasNetworks.

TasNetworks and you.

To be successful in this role

- Demonstrate our Core Competencies, which are central to all positions at TasNetworks.
